Body Play: Hands-on Play

Saturday, June 9, 2007, 2:00—4:00 pm

It's all in the wrist... and hands, and hips, and feet! The most accessible, easiest to use, and least expensive SM toy you'll ever play with is your own body. Come and discover ways to use your hands, arms, legs, torso, feet, mouth and other body parts to create sensual SM scenes that can range from gentle to challenging. For starters, we'll talk about how to tune in and ground with your partner during a scene.

Then we'll cover slapping, tickling, scratching, weight exchange, biting and more. And last but not least, find out how to put some punch into your playing... with techniques for punching, kneeling and kicking! This is an interactive hands-on workshop; you'll be encouraged to ask questions, share your experiences and contribute your ideas.
